About Me

An Undergrad of Games Design from University of Ulster, I'm interested in level design as i enjoy the involvement of developing levels that focuses on world-building and player interaction and make them feel immersive in the world. I do like to dip my feet into different roles of projects that keeps my experience fresh and explore new opportunities.

Experiences

Solo Projects

- A Sharpe's Journey - Game Prototype - This was my first game prototype focusing on player interaction and player space
- The Escape - 3rd Person Shooter Narrative Game - I focused on the level design in this project making sure the level was accurate to a prison and playable using level streaming

Group Projects

- Undead Invasion - Top-down Zombie Tower Attack Mobile Game - This was my first mobile game so it was quite a learning experience for me as well as co-operating with a team
- Project Roles - Level Designer, UI Designer and Game Designer
- Toytopia - First Person Toy Horror Game - This game project tested my dedication to develop games as I brought this game to life through Leadership, Communication and Teamwork
- Project Roles - Project Lead, Level Designer, UI Designer and Game Designer

Education
